

Tariff Bulletin No. 1271

26 August 2026

Subject: GF Baggage Allowance procedures for tickets issued before 26 August 2026.

GF will revise the baggage sensitive routes on 26 August 2026. For tickets issued before 26 August 2026 and subsequently exchanged or reissued on/after 26 August 2026, the following procedures apply:

- Reissue: Where the system performs historical repricing, no action is required, as the baggage allowance will be applied based on the baggage allowance applicable at the time of the original ticket issuance.
- Exchange: Where the system reprices using today's fare, the system will apply the baggage allowance based on the new baggage-sensitive routes. If the original baggage allowance needs to be retained, it can only be manually carried forward and adjusted by the Gulf Air Worldwide Contact Centre (WWCC). No manual baggage allowance adjustment should be made through other channels.

Impacted tickets must be processed as per normal procedures, and only the Baggage Allowance should be manually adjusted where required. WWCC is authorised to re-issue the ticket one time FOC to adjust the baggage allowance.

Baggage allowance ticketing adjustment must be made before 31 December 2026.

Ensure the following OSI remark is added to the booking:

OSI GF HISTORICAL BAGGAGE ALLOWANCE APPLIED AS PER TB 1271
